

## We heard you!

### **MCERC\* is offering CV and Personal Marketing Package program again, this time via ZOOM!**

**Who:** Everyone planning a career, internship, or graduate school program in fields related to marine science, marine biology, and ecology.

**Why:** You want to be able to be prepared to apply for those amazing opportunities in the highly competitive fields of marine science, marine biology, ecology and related fields when you apply for the position

**What:** You can Join the [Marine and Coastal Ecology Research Center](#) (MCERC) faculty and staff for a seminar series focused on supporting your preparation for job, internship, and graduate school applications.

Instruction and discussions via Zoom dedicated to help you put your best introduction forward by creating effective communication via CVs, letter of interest, and email correspondence.

**When:** 4, 4-hour sessions scheduled to be available. Different time zones will be accommodated as more program sessions are posted later in the (northern) fall. See the schedule at the bottom of this announcement for this program session.

**Where:** When you register you will be set up to receive Zoom link and password for the [MCERC](#) meeting room for the program.

**How:** Go the MCERC Home page and navigate to the Education Hub.

Create a free account for the Education Hub if you do not already have one.

Click on the “Open For Enrollment” section on the Education Hub Home Page.

Click on the “CV Seminar – Your Personal Marketing Package” to register and enroll.

**You MUST have access to reliable internet for this program.**

### **This session:**

Session 1: Thursday, August 19, 2021

Session 2: Monday, August 23, 2021

Session 3: Wednesday, August 25, 2021

Session 4: Friday, August 27, 2021

All sessions are 8:00 am - noon Eastern Time (Boston, Massachusetts, USA)

**Details:**

**The cost of this program is \$130.00 USD non refundable.** Clicking on the program title will bring you to MCERC's PayPal where you can submit the program fee even if you do not have a PayPal account.

The next program session will be scheduled in the evening, eastern time USA, to accommodate more time zones and schedules.

The program has a limited number of spaces available. All people who register will receive the link and password needed to enter each meeting about 1 hour prior to the start of that session.

This seminar program consists of instruction, presentations, vignettes, examples, and may include guests to join in the final meeting for a discussion of their experience reviewing applications and interviewing candidates for positions in marine related venues. Participants will not have assignments or homework. Exercises and quizzes will be placed in the program session for practice and guidance.

\*[The Marine and Coastal Ecology Research Center](#) is 501c3 nonprofit organization in the USA. Program tuition helps to support conservation, education, and research for marine ecosystems. Learn more about who we are by going to [www.Marine-Eco.org](http://www.Marine-Eco.org).
